PROFESSIONAL SUMMARY

Highly skilled and detail-oriented Front-End Software Developer with over 3 years of experience building interactive, user-friendly web applications. Proficient in modern front-end frameworks and libraries, including React.js, Redux, and Tailwind CSS. Adept at collaborating with UI/UX designers and back-end teams to deliver seamless and visually appealing digital experiences. Committed to optimizing website performance through code optimization, lazy loading, and responsive design. Proven ability to manage version control, ensuring code reusability and efficient deployment. I am passionate about continuous learning and delivering innovative solutions that enhance user experience and business growth.

TECHNICAL SKILLS

- **Languages & Frameworks:** HTML, CSS, JavaScript, React.js, Redux
- **CSS Libraries & Tools:** Tailwind CSS, Bootstrap, Semantic UI
- **Version Control:** Git, GitHub
- **Tools & Software:** Visual Studio Code, Firebase, Framer Motion
- **Performance Optimization:** Lazy loading, Code splitting, Caching techniques
- **Responsive Design:** Media queries, Flexbox, Grid layout
- **Form Management:** React Hook Form, Form validation
- **Collaboration Tools:** Jira, Slack

PROFESSIONAL EXPERIENCE

Front-End Software Developer

Uridium Technologies Ltd (Alternative Bank)

January 2024 – Present

- Designed and implemented interactive data visualizations and dashboards, improving user decision-making through data insights.
- Created dynamic CSS animations and used Framer Motion to enhance the visual appeal of user interfaces, resulting in increased user engagement.
- Developed mobile-first responsive designs using media queries and advanced layout techniques like Flexbox and Grid, ensuring consistency across all devices.

- Utilized lazy loading, code-splitting, and caching strategies, reducing page load times and improving overall site performance.
- Built reusable UI components, ensuring code consistency and reducing development time across multiple projects.
- Integrated complex forms with validation and custom error handling using React Hook Form, improving user experience and data accuracy.

Front-End Software Developer

Whytecleon Plc (Alternative Bank), Abuja, Nigeria

July 2022 – December 2023

- Developed and maintained e-commerce websites using React.js and Tailwind CSS, working closely with designers to deliver pixel-perfect, branded web pages.
- Collaborated with back-end teams to ensure secure and efficient data transfer, integrating APIs and managing data flow between the front-end and server.
- Conducted code reviews, ensured best practices adherence, and improved application performance by optimizing code for accessibility and SEO.
- Implemented state management using MobX, improving application performance and user experience across complex projects.

Front-End Software Developer

Whytecleon Plc (Sterling Bank), Abuja, Nigeria

August 2020 – July 2022

- Developed and maintained websites using HTML, CSS, JavaScript, and React, collaborating with back-end developers for seamless functionality integration.
- Leveraged Redux for state management, ensuring smooth user interactions and efficient data handling.
- Ensured all websites met performance and SEO standards, delivering accessible and fast-loading applications.

EDUCATION

Bachelor of Science in Computer Science & Information Technology

Igbinedion University, Okada, Edo State | September 2010 – July 2016

CERTIFICATIONS

- Certified Sterling Bank Tech Academy Frontend Developer
- Certified Data Analyst (SPSS)

- Research & Project: Designed and implemented a Patient Information Database System
